# THE GREAT PYRAMIDS OF GIZA

## INTRODUCTION

The Giza pyramid complex (pyramids of Giza) is an archaeological site on the Giza Plateau, on the outskirts of Cairo, Egypt. This complex of ancient monuments includes the three pyramid complexes known as the Great Pyramids, the massive sculpture known as the Great Sphinx, several cemeteries, a workers' village and an industrial complex. It is located approximately 9 km west into the Libyan Desert from the Nile River at the old town of Giza, and about 13 km southwest of Cairo city centre. The pyramids, which have historically loomed large assemblies of ancient Egypt in the Western imagination were popularised in Hellenistic times, when the Great Pyramid was listed as one of the Seven Wonders of the World. It is by far the oldest of the ancient Wonders and the only one still in existence.

# LES GRANDES PYRAMIDES DE GIZEH

Le complexe pyramidal de Gizeh (les pyramides de Gizeh) est un site archéologique situé sur le plateau de Gizeh, en périphérie du Caire en Egypte. Ce complexe de monuments anciens comprend trois pyramides qu'on surnomme les Grandes Pyramides, la grande sculpture massive du Sphinx, plusieurs cimetières, un village d'ouvriers et un complexe industriel. Le plateau est situé en bordure du désert de Libye, sur les rives du Nil, dans l'ancienne ville de Gizeh et à environ 13 km du centre de la ville du Caire. Les pyramides sont, à juste titre, reconnues comme emblèmes de l'Égypte ancienne dans l'imaginaire occidental. Elles ont été popularisées à l'époque hellénistique, lorsque la Grande Pyramide a été répertoriée comme l'une des Sept Merveilles du monde. C'est de loin la plus âgée des Sept anciennes Merveilles du monde et la seule qui existe encore.
