# CREATE CHAOS WITH NEW NINJA TURTLE TOYS

Get ready for some turtle power! The release of a brand-new Teenage Mutant Ninja Turtles movie means there's a whole new range of TMNT toys to get excited about. Thanks to the stunning animated visuals of the TMNT movie, Playmates has created a collection of toys that perfectly capture the sleek and stylish look of the movie. There's a wide range of figurines, playsets, and vehicles that are not only fun to play with but some also come with cool features like speaking or glowing in the dark. Whether you're a fan or nostalgic for the 90s, there's something for everyone to enjoy and be thrilled about.

# THE NEW TMNT MOVIE IS INCREDIBLE!

We had a special invitation from the Paramount team and got to see the Teenage Mutant Ninja Turtles : Mutant Mayhem movie before it even hit the theaters! It's like nothing you've ever seen before. It's this awesome mix of modern vibes, unique sketchy animated style, crazy cool action scenes and that nostalgic 90s feel. The story is all about growing up and trying to find your place in the world, which is something we can all relate to, right? But the best part is the characters, they're so lovable, even the bad guys!

Even if you've never seen any of the TMNT original shows or movies, you can still totally get into it. They explain everything you need to know about the turtles' origin story. But the story has been totally reimaged, and the characters have been changed to fit into the teenage universe.

This movie is going to blow your mind. You won't want to miss it!

## SYNOPSIS

After years of being sheltered from the human world, the four Turtle brothers set out on a quest to be accepted as normal teenagers by the people of New York City through acts of heroism. With the aid of their new friend April O'Neil, the brothers go on a hunt for a mysterious crime gang, but trouble arises when this army of mutants is unleashed upon them. The movie will be in theatres August 2.

**Disney - Ariel "The Little Mermaid" Live-Action Plush**

Bring Ariel's magical underwater world to life with this little mermaid plush toy! Inspired by Halle Bailey's mermaid look in the new live-action movie. The plush doll has Ariel's signature hair style and mermaid tail.

**"The Little Mermaid" is the beloved story of Ariel, a beautiful and spirited young mermaid with a thirst for adventure. The youngest of King Triton's daughters and the most defiant, Ariel longs to find out more about the world beyond the sea and, while visiting the surface, falls for the dashing Prince Eric. While mermaids are forbidden to interact with humans, Ariel must follow her heart. She makes a deal with the evil sea witch, Ursula, which gives her a chance to experience life on land but ultimately places her life – and her father's crown – in jeopardy.**

# Colourful explosion race

Small measuring cup

Citric acid  
(lemon juice or vinegar)

Gloves

Sodium bicarbonate

Protective goggles

• Colourings

Pasteur pipettes

Plastic spatula

### Extra material:

- Dishwashing liquid
- Water
- Cups\*
- Tray

\*as many colours as you want to make; you can also use the large measuring cups of the kit.

**ATTENTION:** ask an adult for help.

### Citric Acid WARNING

Hazard Statement: Causes serious eye irritation.

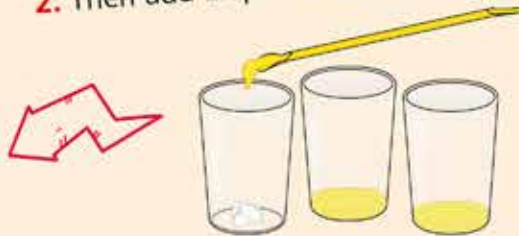

### Steps:

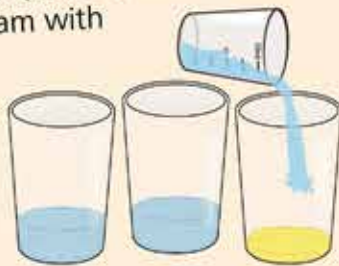

1. With the plastic spatula, add 2 spoons (with the larger side) of sodium bicarbonate to each cup.

2. Then add 2 spoons of dishwashing liquid.

3. Now add 25ml of water to each cup with the small measuring cup and stir well, while trying not to form foam with the plastic spatula."

4. Finally, add 2 drops of each colouring with the Pasteur pipette, or mix 1 drop of 2 different colours to get new colours."

5. We need to prepare a citric acid solution now. To do this, put 50 ml of water in a clean cup (use the small measuring cup to help) and 2 spoons of citric acid, with the help of the plastic spatula.

6. Arrange the cups in line on top of a tray. Finally, pour a little of the solution prepared in the previous step into each one.

Are you ready for the most colourful explosion ever?

### What happens?

When you mix an acid with a base, a chemical reaction that releases  $\text{CO}_2$  occurs.

It's this gas that, being in a solution with detergent, creates the explosive foam that you observe!

Isn't chemistry explosively fun?
